

ADJUSTABLE SECURITY SHUTTER SYSTEMS

Introducing Shutout Shutters, cutting-edge and innovative security shutters designed to enhance the beauty and safety of your home. Our adjustable security shutters combine superior product design with exceptional functionality, providing virtual light block-out capabilities and robust security features.

Designed and manufactured locally for South African conditions, the Shutout Shutter ensures high end craftsmanship with customisable options to meet your specific needs.

Experience the perfect blend of aesthetics, energy efficiency, and security with Shutout Shutters.

WHAT SETS US APART

- Uniquely designed to minimise external light penetration
- Thicker aluminium gauge for a stronger system
- Versatility with multiple blade options - Adjustable and various fixed blade options
- Customisable powder coating options in many colours
- Designed to be compatible with standard aluminium window & door systems
- All exposed moulded components are UV stabilised and anti-brittle resistant
- Uniquely designed panel assembly for maximum strength
- All our systems have compensating channel options
- Sliding and hanging options in reveal and face fix applications

SECURITY FEATURES

- Anti-lift and interlocking panels
- Blades locked by use of special slide lock, locking the blade into place
- Multi locking system options available
- Louvre pivots are tamperproof

LIMITATIONS

- Max Height: 2700mm
- Max Panel Width: 850mm

MAINTENANCE

- Our systems are designed with low maintenance in mind.
- When you purchase a Shutout Shutters product, you will receive a maintenance and care manual for peace of mind product care.

ENVIRONMENTAL CONSIDERATION

- All our materials and components are recyclable

GUARANTEES
